

Testimonials Plugin Brief Overview

If you need an easy way to share your clients' feedback with your website's users, then you have to try Testimonials Plugin. It allows you to create and to display Testimonials on your website. You can display them as a widget, or to embed them into a Post/Page with the help of shortcode or by changing your template's code.

Add testimonials on your blog within few clicks!

This convenient plugin is a new vision on displaying endorsements on your website.

Create a testimonial via custom post type. To add testimonials on your blog, just insert this shortcode into the content of your post/page:

Working with the BestWebSoft team has been really great. It was vital for me to find a team who understood my vision and turned it into reality. The deliver on time and their communication is A+. Looking forward to working with them

again!

G. Castiglione
Founder & CEO of DateSpotz

We are very impressed how fast and reliable the BestWebSoft team works on our projects. Clean code, perfect designs and a very uncomplicated communication. It's always a pleasure to work with them! Best external Web development for our company!

Christian Printing
CEO & General Manager of OR Online Revolution GmbH

I have not had much luck in getting quality offshoring graphic design. But I have been very happy with you. Onshore in America, it is very expensive to get a graphic designer. I also like how you were able to pickup my style and run with it. I know it wasn't quite your preferred style, but you were able to adapt to my style and it has worked very well.

Matt Fitzgerald
Founder & Owner of My Nutrition Advisor

Despite my constant stream of messages and requests, the team has been exceedingly patient, responsive and efficient. The tasks are completed very quickly compared to some of the other developers that I've used in the past.

Susan Linton
President of International Frozen Yogurt Association

We had a plan to develop a modern and user-friendly website for our new start-up POA.ae. Initially, it was a tough challenge to find a firm that can handle both designing and development part well. We have come across with firms that are good at developing but lack designing skills. Thankfully, we found BestWebSoft at a right time. BestWebSoft has a team of excellent developers and designers both who were capable of developing a website that we wanted to see. We continue working with BestWebSoft.

The screenshot shows the 'Testimonials Settings' page in the BestWebSoft admin panel. The left sidebar contains a menu with options like Dashboard, Posts, Media, Pages, Comments, Testimonials, Appearance, Plugins, Users, Tools, Settings, BWS Panel, Plugins, Themes, System Status, Testimonials, and Collapse menu. The main content area has a 'Testimonials Settings' title and two tabs: 'Settings' and 'Custom code'. The 'Settings' tab is active, showing instructions on how to display testimonials using a widget or by adding a shortcode. A red box highlights the 'Number of testimonials to be displayed' field, which is set to 5. Below this, there are radio buttons for 'Sort testimonials by' (testimonial id, testimonial title, date, random) and 'Testimonials sorting' (ASC, DESC). A 'Save Changes' button is at the bottom.

Testimonials Settings

Settings Custom code

If you would like to display testimonials with a widget, you need to add the widget "Testimonials Widget" on the Widgets tab.

If you would like to add testimonials to your page or post, please use `[tstmnl]` button [?](#)

Also, you can paste the following strings into the template source code `<?php if (has_action('tstmnl_show_testimonials')) { do_action('tstmnl_show_testimonials'); } ?>`

Widget title

Number of testimonials to be displayed

Sort testimonials by

- ☐ testimonial id
- ☐ testimonial title
- ☒ date
- ☐ random

Testimonials sorting

- ☐ ASC (ascending order from lowest to highest values - 1, 2, 3; a, b, c)
- ☒ DESC (descending order from highest to lowest values - 3, 2, 1; c, b, a)

Save Changes

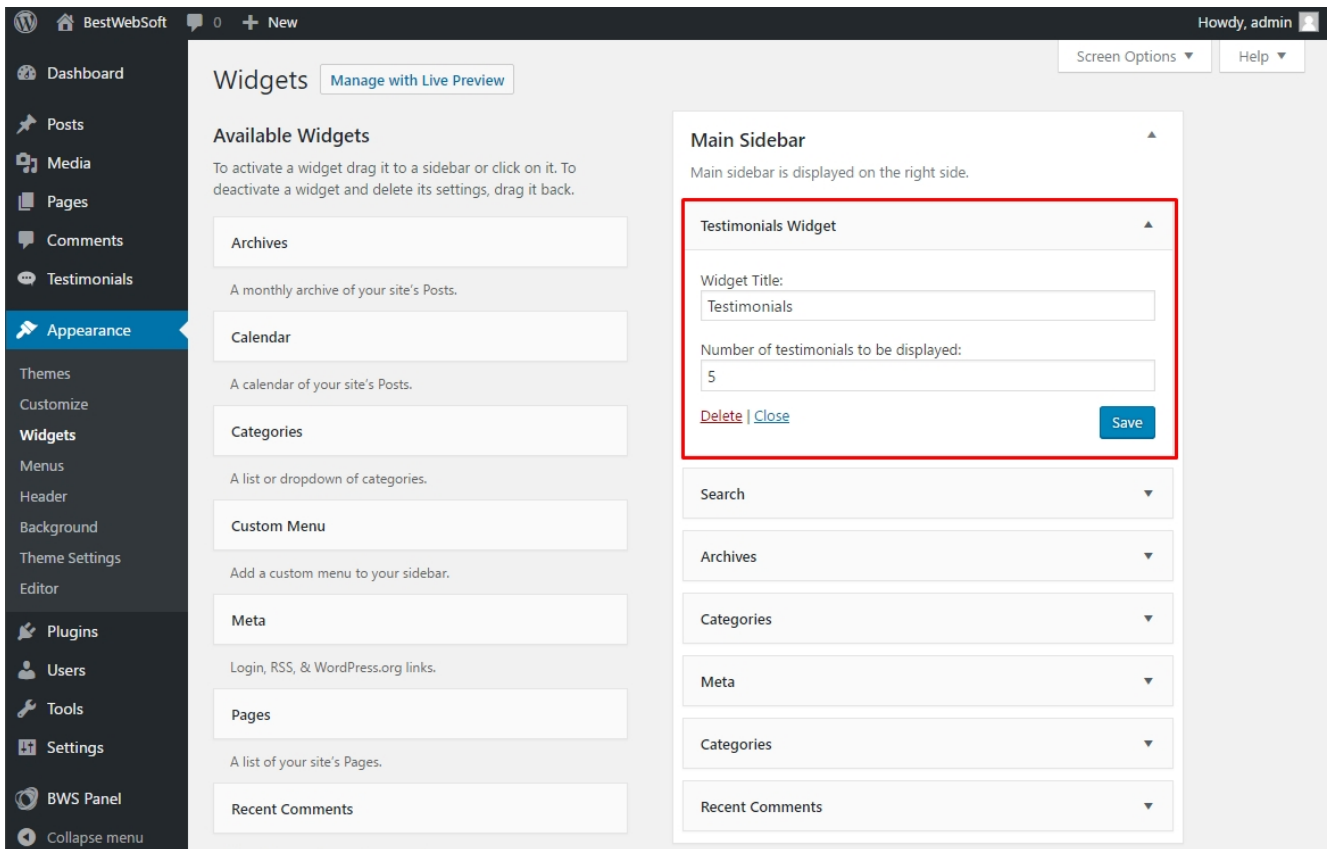

Set the Number of Testimonials

Or display your testimonials through the widget. Just don't forget to add the "Testimonials Widget" on the Widgets tab in your Admin Panel.
